

261400800

Zirkon Con

- Easy installation by 12 mm sensor design
- Integrated Temperature sensor

Zirkon Con 261400800

Applications

**Drinking Water /
Beverages**

Process Water

Description

2-electrode conductivity sensor for electrolytic conductivity with integrated temperature probe Pt100. The body material is Epoxy, the electrodes are made of graphite.

Technical data

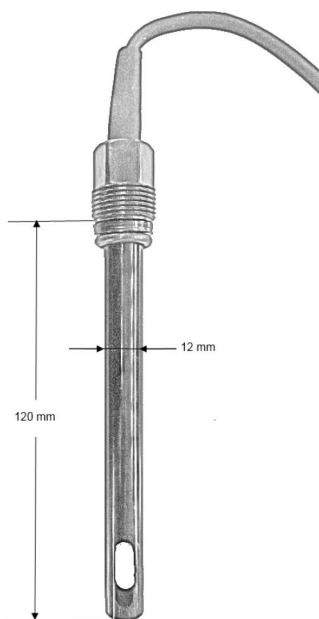

Measuring parameter

Conductivity (conductive) 0.00.. 20.00 mS/cm

Mechanical construction

Shaft material	Epoxy
Mechanical Construction	120 mm
Electrode material	graphite
Mechanical connection	revolving PG 13,5
Electrical connection	5 m fixed cable
Temperature sensor	Pt 100

Mechanical drawing

261400800
