

AuAu-600-OO-6-1-PG

Sensor for measuring of disinfectants

AuAu-600-OO-6-1-PG

Applications

**Drinking Water /
Beverages**

Disinfection

Swimming-Pool

Description

AuAu-600-OO-6-1-PG is a single rod sensor with integrated counter electrode. This potentiostatic double gold sensor is in combination with our instruments suitable for measuring free Chlorine, Chlorine Dioxide and Ozone.

AuAu-600-00-6-1-PG

Sensor for measuring of disinfectants

Mechanical construction

Junction	1 mm ceramic
Shaft material	Glass
Electrode material	Gold
Reference system	Ag/AgCl/ KCl saturated
Mechanical connection	M12 plug (PG 13,5)
Electrical connection	M12 Stecker

Mechanical drawing

Storage version

Article number	Name	Description
24135145K	AuAu-600-00-6-1-P G	Des sensor: double gold electrodes, KCl saturated., M12, 120 mm
