

Pt-55-W

Temperature sensor

Applications

Description

The temperature sensor Pt 100 is a temperature probe which is based on the resistance change of platin at temperature influence.

Pt-55-W

Temperature sensor

Mechanical construction

Shaft material resin
Electrical connection M12 Stecker (PG13,5)

Storage version

Article number	Name	Description
24137030K	Pt-55-W	Flow sensor with reed contact and integrated Pt100
