

Pt-600-O-6-1-PG

ORP sensor

Pt-600-O-6-1-PG

Applications

Disinfection

Process Water

Description

Pt-600-O-6-1-PG is a combination electrode with platinum ring for ORP measurement. The sensor is liquid filled with saturated KCl.

Pt-600-O-6-1-PG

ORP sensor

Technical data

Measuring parameter

ORP -1500.. +1500 mV

Mechanical construction

Junction 1 mm ceramic

Shaft material Glass

Mechanical Construction 120 mm

Electrode material Platinum

Reference system Ag/AgCl/KCl ges.

Mechanical connection S8 screw plug (PG 13,5)

Electrical connection 2 pole screw connection

Storage version

| Article number | Name | Description |
